

Nilesh Parmar

PHP & Laravel Developer

Chandkheda, Ahmedabad | +91 82002 56780 | coder.nilesh0611@gmail.com | GitHub: github.com/200yashh | Portfolio: 200yashh.github.io/portfolio

PROFESSIONAL SUMMARY

Backend-focused PHP (Laravel) Developer with 3.5+ years of professional experience in building, maintaining, and optimizing secure and scalable web applications. Strong command over the Laravel framework, MVC architecture, RESTful API development, and MySQL database optimization. Comfortable working independently as well as part of a team — owning backend modules end to end, debugging complex issues, and making technical decisions that directly impact product quality and performance.

TECHNICAL SKILLS

Backend: PHP 8, Laravel, REST APIs, MVC Architecture, OOP Principles

Database: MySQL

Frontend: HTML5, CSS3, Bootstrap, JavaScript, jQuery

Tools: Git, Sourcetree, Jira, CPanel, WordPress & WooCommerce

PROFESSIONAL EXPERIENCE

Backend Developer (Laravel) — Core Techno Pty Ltd

2023 – Present

- Developed and maintained backend systems using Laravel for production-level applications
- Worked on NDIS-based systems handling complex data structures, user roles, permissions, and workflows
- Designed and optimized MySQL schemas, queries, and reports for large datasets
- Built secure RESTful APIs for web and mobile (Flutter) applications
- Implemented authentication, authorization, validation, and error handling best practices
- Debugged production issues and optimized application performance
- Followed Git best practices with clean commits and proper branching
- Actively participated in Agile processes using Jira

Backend Developer (Internship & Training) — Gujarat Info System Pvt Ltd

2022 – 2023

- Gained strong foundation in PHP and Laravel development
- Developed dynamic websites and custom CMS solutions
- Learned real-world agency workflows, deployment processes, and client-based development
- Worked closely with senior developers to improve code quality and problem-solving skills

KEY PROJECTS

NDIS Management System

- Backend development for participant management, staff rosters, service scheduling, and reports
- API integrations and data security implementation

Logistics & Transport Systems

- Job assignments, shipment tracking, driver and subcontractor payment calculations
- Performance-optimized database queries for transactional data

Dynamic CMS Websites

- Admin panels, role-based access control, and content management features

TrendWale — Kids Wear E-Commerce Store (trendwale.in)

- Built and set up a complete online store for a kids wear brand using WordPress & WooCommerce
- Configured product catalog, cart, checkout, and pan-India shipping integration

EDUCATION

Master of Computer Applications (MCA) — Gujarat Technological University (Pursuing)

Bachelor of Computer Applications (BCA) — Gujarat University (2020 – 2023)

ADDITIONAL STRENGTHS

- Works well independently and as part of a team, owning backend systems end to end
- Collaborates closely with senior developers and cross-functional teams
- Product-focused mindset with attention to clean, maintainable code
