

NILESH PARMAR

Senior PHP / Laravel Developer

Chandkheda, Ahmedabad | +91 8200256780 | coder.nilesh0611@gmail.com | GitHub: github.com/200yashh

PROFESSIONAL SUMMARY

Backend-focused PHP (Laravel) Developer with 3.5+ years of professional experience in building, maintaining, and optimizing secure and scalable web applications. Strong command over Laravel framework, MVC architecture, RESTful API development, and MySQL database optimization. Experienced in working independently with minimal supervision, owning backend modules end-to-end, debugging complex issues, and making technical decisions that directly impact product quality and performance. Comfortable communicating in English with both technical and non-technical stakeholders.

TECHNICAL SKILLS

Backend: PHP 8, Laravel, REST APIs, MVC Architecture, OOP Principles

Database: MySQL (Complex Queries, Transactions, Indexing, Optimization)

Frontend: HTML5, CSS3, Bootstrap, JavaScript, jQuery, Basic Vue.js & Tailwind CSS

Tools: Git, Sourcetree, Jira, CPanel

Server: Basic knowledge of Linux, Nginx, SSL Configuration

Practices: Secure Coding, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

Backend Developer (Laravel) – Core Techno Pty Ltd | 2023 – Present

- Developed and maintained backend systems using Laravel for production-level applications.
- Worked on NDIS-based systems handling complex data structures, user roles, permissions, and workflows.
- Designed and optimized MySQL schemas, queries, and reports for large datasets.
- Built secure RESTful APIs for web and mobile (Flutter) applications.
- Implemented authentication, authorization, validation, and error handling best practices.
- Debugged production issues and optimized application performance.
- Followed Git best practices with clean commits and proper branching.
- Actively participated in Agile processes using Jira.

Backend Developer (Internship & Training) – Gujarat Info System Pvt Ltd | 2022 – 2023

- Gained strong foundation in PHP and Laravel development.
- Developed dynamic websites and custom CMS solutions.
- Learned real-world agency workflows, deployment processes, and client-based development.
- Worked closely with senior developers to improve code quality and problem-solving skills.

KEY PROJECTS

NDIS Management System

- Backend development for participant management, staff rosters, service scheduling, and reports.
- API integrations and data security implementation.

Logistics & Transport Systems

- Job assignments, shipment tracking, driver and subcontractor payment calculations.
- Performance-optimized database queries for transactional data.

Dynamic CMS Websites

- Admin panels, role-based access control, and content management features.

EDUCATION

Master of Computer Applications (MCA) – Gujarat Technological University (Pursuing)

Bachelor of Computer Applications (BCA) – Gujarat University (2020 – 2023)

ADDITIONAL STRENGTHS

- Ability to work independently and take ownership of backend systems.
- Strong debugging and analytical skills.
- Clear English communication with technical and non-technical team members.
- Product-focused mindset with attention to clean, maintainable code.
